Half Curve

Barrel

All Aliport Commercial Products are manufactured in-house and installed by our own fitters.

Aliport Commercial retain total control of the service provided to its customers.

To meet commercial requirements, all of our structures are designed for their intended use.

All components forming the main structure are made of aluminium and combined with the fire resistant roof sheets, you will have a structure that protects all year round against rain, wind and snow.

All Aliport Commercial Products are manufactured to the dimensions you require. That means:

- the exact length
- the exact width
- the exact height

Key features of Aliport Commercial aluminium structures:

- only quality materials used
- clear spans up to 6.1 m
- freestanding designs available
- structures can be tapered
- no rotting of timbers
- no rusting of steel

SPECIFICATION

Main Structural Frame: Aluminium complying with BS1474 (Type: 6082 T6)

Finish: Polyester powdercoat (colour to client's specification)

Roofing: Complying with BS 476 Part 7 (Class I rating for surface spread of flame).

Sheet Types: either polycarbonate or GRP with UV protection.

BESPOKE DESIGNS

Aliport Commercial can also manufacture in other materials and to other specifications. Bespoke designs are our speciality.
