

Monksmead School

Installation Date: April 2015

Location: Hertfordshire

Installation Type: Mono

Extras: Side Screens, Coloured Sheets, Post Protectors

Installation Size: 30m²

Installation Duration: 3 Days

Value Range: £0k - £20k

Purpose: Create an Outside Play Area

Design Brief

Aliport Commercial were first contacted in March 2015 about this project. Monksmead contacted Aliport Commercial after a recommendation from the main contractor building the extension at their site. They requested that Aliport Commercial create a vibrant and colourful outdoor play area for their children with colourful side screens and post protectors.

Site Conditions

Aliport Commercial undertook two site visits to fully understand the project, measure up and produce the designs for the new canopy. The school was operational during the works so the work area was segregated using HERAS fencing. There was a relatively short lead in time for the works with a month between initial enquiry and commencement on site so design and manufacture were prioritised in order to meet the required time-line

Aliport Solution

Aliport Commercial commenced works in April 2015 and in a 3 day duration installed the canopy, side screens and post protectors. The canopy was powder-coated white and installed and vibrant side screens were added to create vibrant look that Monksmead were looking for. Post Protectors were installed to protect the children from injury from knocking into the posts. The finished canopy as per Monksmead requirements is a stunning and vibrant outdoor play area
